## EXPERIENCE

### NAGARRO | Associate Software Engineer
Aug 2022 – Present | Gurugram

- Developed RESTful APIs using Java and Spring Boot following the MVC architecture to provide reliable and scalable data transfer between client-side and server-side applications.
- Implemented a password reset feature to send a one-time password to user's mobile phone and email address using a third-party SMS and email delivery API.
- Enhance the user experience by adding a search box, pagination, role-wise column segregation, reassign button for admin, and adding comments.
- Added functionalities to update user details (email, primary address, etc.

### NAGARRO | Training

- Developed a Result Management System using EJS and ExpressJS with a MySQL database.
- Worked on multiple assignments involving the Product Community Website where customers can visit, register themselves, raise for review, add reviews, etc.
- Implemented REST APIs using Spring Boot with maven build and integrated MYSQL database connectivity using Hibernate to enable efficient storage and retrieval of data.
- Designed and implemented various front-end components using ReactJS and Bootstrap.

### INTIMETEC | Jr. Salesforce Developer Trainee
Feb – May 2022 | Jaipur, RJ

- Developed a comprehensive Library Management System from scratch, streamlining book borrowing processes and membership management.
- Integrated advanced features to automate notifications, due date reminders, and seamless book availability checks.

### SPANDUSK MEDIA PVT LTD | UI/UX | Brand Identity Designer
Jan 2020 – Dec 2021 | Jaipur, RJ

- Designed user-friendly web and mobile interfaces in collaboration with cross-functional teams, ensuring a seamless user experience.
- Crafted brand strategies, establishing consistent visual identities with captivating logos, typography, and color palettes across multiple platforms.

## PROJECTS

### CRYPTO CURRENCY TRACKER | Personal Project
Visit: Crypto Tracker

- Web App to track the live data such as Price, Market cap, etc.
- Auto update without refreshing every 30 seconds.
- Offers functionality to get data in multiple currencies.
