SKILLS

Programming Languages:
Java • JavaScript

Database:
MongoDB • MySQL

Web & Development:
Node.js • Express.js • React • System Design • Restful Web Services Bootstrap • HTML • CSS • Springboot

Core Skills:
OOPs • DBMS

Design Skills:
UI/UX • Brand Identity Design Typography

TOOLBOX

Coding:
Git • GitLab • Postman

Adobe suite:
Figma • Illustrator • Photoshop

Ms Office:
Word • Excel • PowerPoint

CERTIFICATIONS

GFG://**Data Structure & Algorithms**
Spandusk:// **UX Design**
VGT://**Java**

COURSEWORK

Undergraduate
Data Structures & Algorithms
Object Oriented Programming
Database Management System
Goggle UX Design

PROFILE SUMMARY

- A detail-oriented professional with experience of nearly 1.5 years in back-end Software Development in a Service-based company.
- Experienced as a Software Developer Engineer at Nagarro, showcasing proficiency in Back-end development and front-end design skills, leading to successful project outcomes.
- Proven track record in software development, including roles at Nagarro as an Associate Engineer and at InTimeTec as a Jr. Software Engineer Trainee, with hands-on experience in API analysis, REST API development, UI/UX design, and Salesforce CRM.

EXPERIENCE

NAGARRO | Associate Engineer
Aug 2022 - Nov 2023 | GURUGRAM, IN

- TECH: JAVA, Node.js, Express.js, MongoDB
- Developed and implemented a new build and deployment process, reducing deployment time by 30% and minimizing production issues by 20%
- Led API analysis and facilitated a successful transition to a web revamp, resulting in streamlined operations and 25% time savings.
- Introduced key features such as document management and academic records, enhancing app functionality and boosting user satisfaction by 25%
- Developed RESTful APIs using Java and Spring Boot following the MVC architecture to provide reliable and scalable data transfer between client-side and server-side applications.
- Collaborated with a team to revamp a user interface using React and Figma which helped enhance the user experience

INTIMETEC | Jr. Software Engineer Trainee
Feb 2022 – May 2022 | JAIPUR, IN

- TECH: Salesforce CRM
- Created a Library Management System from scratch, streamlining book borrowing and membership management
- Integrated advanced features to automate notifications, due date reminders, and seamless book availability checks

PROJECTS

CRYPTO TRACKER

- Real-time Data Tracking: Monitor live data including Price, Market Cap, and more in real-time
- Auto-Update: Enjoy seamless updates every 30 seconds
- Multi-Currency Support: Access data in multiple currencies for enhanced flexibility and decision-making
